

# **SEVERE WEATHER BULLETIN #21**

FOR: TROPICAL STORM "ROLLY" (GONI)
TROPICAL CYCLONE: WARNING

## ISSUED AT 5:00 AM, 02 November 2020

(Valid for broadcast until the next bulletin to be issued at 11 AM today)

#### "ROLLY" CONTINUES TO WEAKENS OVER THE WEST PHILIPPINE SEA.

## Track and intensity outlook:

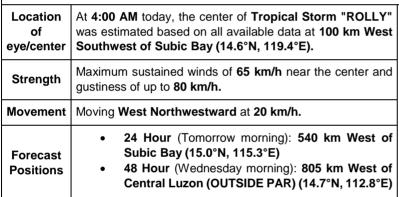

On the forecast track, "ROLLY" is expected to exit the Philippine Area of Responsibility (PAR) tomorrow morning. It is forecast to remain as a tropical storm throughout the forecast period. However, there is an increasing likelihood that "ROLLY" will weaken into a tropical depression due to increasingly unfavorable conditions.

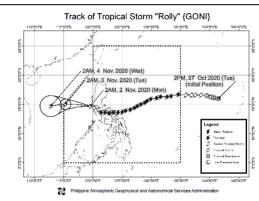

## Hazards affecting land areas:

Strong breeze to near gale conditions with occasional gusts for areas under TCWS #1, Batanes, Babuyan Islands, Ilocos Region, Cordillera Administrative Region, and the northern portions of mainland Cagayan and Zambales.

## **Hazards affecting coastal waters:**

- Rough to very rough seas (2.5 to 5.0 m) will prevail over the seaboards of Northern Luzon and Central Luzon, the western seaboards
  of Batangas, Occidental Mindoro including Burias Island, and Calamian Islands, and eastern seaboards of Quezon including Polillo
  Islands and Bicol Region. Sea travel is risky over these waters, especially for those using small seacrafts.
- Moderate to rough seas (1.2 to 2.5 m) will be experienced over the western seaboards of Palawan including Kalayaan Islands and
  the eastern seaboards of Visayas and Mindanao. Mariners of small seacrafts are advised to take precautionary measures when
  venturing out to sea. Inexperienced mariners should avoid navigating in these conditions.

## TROPICAL CYCLONE WIND SIGNAL

TCWS	Luzon	Visayas	Mindanao	Impacts of the wind
1 (30-60 km/h winds prevailing or expected in 36 hours)	The northwestern portion of Occidental Mindoro (Paluan, Mamburao, Abra de Ilog) including Lubang Island, the western portion of Batangas (Tingloy, Mabini, Bauan, San Luis, Taal, Agoncillo, San Nicolas, Santa Teresita, Talisay, Laurel, Lemery, Calaca, Balayan, Calatagan, Tuy, Lian, Nasugbu), the extreme western portion of Laguna (San Pedro City, Biñan City), Cavite, Metro Manila, the western portion of Bulacan (San Jose del Monte City, Santa Maria, Pandi, Bustos, Baliuag, Marilao, Meycauayan City, Obando, Bocaue, Bulacan, Balagtas, Guiguinto, Pulilan, Plaridel, Malolos City, Paombong, Hagonoy, Calumpit), the western portion of Pampanga (San Luis, Mexico, Masantol, Sasmuan, Floridablanca, Lubao, Porac, Guagua, Santa Rita, Bacolor, Angeles City, Santo Tomas, San Fernando City, San Simon, Macabebe, Minalin, Apalit), Bataan, and the southern portion of Zambales (San Marcelino, San Felipe, San Narciso, San Antonio, Castillejos, Subic, Olongapo City).	-	-	Very light or no damage to low risk structures, Light damage to medium to high risk structures Slight damage to some houses of very light materials or makeshift structures in exposed communities.
